Replaceable indicators

Accidents happen, especially within warehouses and factories. For this reason, we have designed the indicator on the B-250 to be easily replaceable.

Should the indicator become damaged, you can place an order via Marsden, and without need to have your scale recalibrated, you can replace the indicator yourself, but unclipping and inserting your new one.

Portable

An internal rechargeable battery provides at least 40 hours of continuous use, which offers you great flexibility when weighing in warehouses and factories.

Plus, the B-250 is also compact and incredibly lightweight at only 4.8kg, making transporting the scale around your establishment incredibly easy and quick for your staff.

Precision weighing

The B-250 features from a versatile indicator, which means that regardless of what is placed on the scale, the indicator is always easy to see.

The B-250 is supplied as standard with a wall bracket and due to the crystal clear LCD display, the weight reading can be easily seen from any distance, in a vast number of environments.
