Trade Approved

If money is exchanging hands due to a given weight, the scale used must be Trade Approved. The DS-673SS is a Trade Approved weighing device.

The DS-673SS is a suitable scale for use in all environments, including factories and warehouses due to the heavy duty construction and the high degree of accuracy due to the Trade Approval.

Portable

An internal rechargeable battery provides at least 40 hours of continuous use, which offers you great flexibility and the assurance that the DS-673SS will last through a shift.

Plus, the DS-673SS is a lightweight and highly portable scale, meaning that the scale can be easily transported around your vicinity, to enable easy and accurate weighing in all areas.

IP68 rating

The DS-673SS is fully waterproof - this has made it a popular choice for food industries where weighing scales need to cope with getting wet on a regular basis.

The DS-673SS enclosure is a full stainless steel construction, which holds encapsulated loadcells, to ensure that accurate and safe weighing can be carried out in even the harshest environments.
