### Trade Approved

It is a legal requirement that all scales used in the buying and selling of goods are Trade Approved. That means retail scales, must always be Trade Approved.

The DS-781 allows price to be accurately calculated on a price per kg basis or price per 100g, without the need for the cashier to manually calculate the price, reducing chance of error.

### Take it where you need it

Powered by four C-sized batteries that provide 200 hours' continuous use, this is a truly portable weighing scale which can be easily moved around your store.

An AC adaptor is also supplied to power the scale as a back up power reserve. Weighing only a few kilograms this scale can be easily transported, making it perfect for use on market stalls

### Faster transactions

Choose the DS-781 for an easier retail experience. It has both customer and operator displays, which enables quick transactions.

It also has 99 PLUs and 16 pre-set keys, which means weights and prices of items you sell can be stored to the memory, and easily accessed when you or your staff need them.
