### What is the I-100?

The I-100 is our entry level indicator and it is quick and easy to use for accurate weighing. This indicator allows the user to obtain high accuracy weight readings efficiently.

This easy to use indicator can be paired with a Marsden bench or platform scale to enable simple weighing with a wide range of functions available to improve processes and save money.

### Clear and easy to read

The I-100 combines tough, rugged build quality with easy to use features and a bright, bold weight display making it perfect for use in all environments.

The indicator is primarily designed for easy buy precise check weighing. Therefore, it has a bright and clear 25mm LCD display, which can easily switch between lb and kg readings.

### Easy access functions

The I-100 indicator is packed with easy to use features. Tare will allow you to remove the weight of unwanted items Hold will stabilise the weight reading.

If you have several items which you want to get a combined weight for, you can use the accumulation function. Simply add each item to the scale separately and one button will total the weight.
