# Jadever JWE:

## Bench Scale

- Large stainless steel weighing pan
- Water resistant keyboard
- Backlit LCD display
- Hi/lo alarm
- Multi-functional check weigher
- Optional RS-232
- High precision
- 40 hours of continuous use
- Graduations as low as 0.1g
- Counting function

### Save data

The Jadever JWE also gives you the ability to record weight readings, when you choose the optional RS-232 output and our U-Key solution.

The Scale to PC USB Lead allows weight information to be sent from the scale to a PC. Simply connect the lead to your PC, add an item to the scale, and weight information will populate a spreadsheet, database.

### Hi/Lo alarm

A hi/lo alarm makes weighing quicker and easier. It means you can weigh to specific targets, with the alarm sounding if you hit a target weight, or exceed a target.

Using a scale with a Hi/Lo alarm can help improve efficiency and speed, especially if you are using the scale regularly and need high accuracy weighing readings, regardless of environment.

### Portable

An internal rechargeable battery provides at least 40 hours of continuous use, which offers you great flexibility for your weighing requirements.

Plus, the JWE is also compact and lightweight, meaning that it is easy to transport around your place of work to ensure that accurate weight readings are always available.
