Tanita KD-200:

Bench Scale

- Removable stainless steel plate
- Large 14mm LCD weight display
- Small and compact design
- Ideal for use in kitchens
- Weighs in kg or lb
- Auto-power off
- Impressive battery life
- Tare
- 1g or 5g graduations
- Covered by 1 year warranty

Removable plate

The KD-200 is a tough weighing scale, suitable for demanding environments, including kitchen, bakeries, breweries and many more.

The scale boasts a splashproof plastic casing, and the removable stainless steel top pan provided can be wiped down to keep it clean and adds a professional finish to this scale.

Portable

An internal rechargeable battery provides at least 600 hours of continuous use, which offers you great flexibility. It also has an auto-power off feature to save battery life.

Plus, the KD-200 is also compact and incredibly lightweight, meaning that the device can be easily moved around your establishment, depending on where you need to weigh items.

Accurate weighing

The KD-200 is ideal for weighing ingredients in any domestic or commercial kitchen. With graduations as low as 1g and a large 14mm LCD display, weighing has never been easier.

The Tare function means that any unwanted weight, such as a bowl can be removed, leaving an accurate reading for your ingredients, without the need for the user to calculate.
