What is the V-150?

The V-150 is a large, professional veterinary scale which has a large stainless steel base. It is accurate to 50g or 100g and comes as standard with a non-slip mat.

The V-150 has quickly become a best-selling animal weighing scales to veterinary surgeries as it is accurate enough to weigh many different animals and you will often find them situated in the main reception.

Easy to clean

To ensure that longevity of this animal weighing scale, we designed this model to be have a stainless steel construction, meaning it can be cleaned easily.

This means that animals can stand on the scale when they are wet and muddy, with no detrimental effect to the weighing scale and it can be wiped down by the veterinary staff and it is good to go.

Highly portable

We understand that whether the scale is been used at home or within a veterinary surgery, it is highly likely that the scale will need to be transported and moved from time to time.

For this reason, the V-150 comes as standard with in-build handles and wheels to ensure that the user can easily manoeuvre the scale into position.
